## Welcome to Oltrepò Pavese, Northern Italy, our Unique Terroir

Oltrepò Pavese is a celebrated wine region in Southern Lombardia, where **tradition and highquality production meet**. This area embodies centuries of winemaking heritage and is the third largest district in the world in terms of hectares planted with Pinot Noir and the first in Italy

It lies on the 45th North parallel, the celebrated wine latitude that it shares with Piemonte and Bordeaux.

With a temperate climate and clay-limestone soils, Oltrepò Pavese offers an ideal environment that enriches the flavors and aromas of our wines, from robust reds to aromatic whites

“Stretch the bottle towards the light; you will see that your dreams are always at the bottom.” - Rob Hutchison

Our mission is to create wines that offer "more from wine" by harnessing the power of **Resveratrol**, merging tradition with a mindful approach to health and nature

Our winemaking philosophy centers on respecting the land and employing *low-intervention and low-yield techniques*. This approach *maximizes Resveratrol* and preserves the authentic qualities of the grapes. Every step, from hand-harvesting to aging, is *designed to maintain purity* and allow the true character of each varietal to emerge.

**"Wine quality begins in the vineyard and is realized in the cellar. " - L. Bavaresco**

## Reseveratrol, the Natural Guardian in our wines

**Resveratrol** is a natural phytoalexin produced by grapevines to protect against pathogens and UV radiation. It's found predominantly in grape skins and contributes to the unique health profile of red wines. Resveratrol has been *extensively investigated by medical researchers* since some decades because of its *benefits for human health*.

**Resveratrol** has been credited with biological effects that may reduce cardiovascular risks, have antioxidant and antiinflammatory properties, can bring metabolic benefits. Further studies are anyway needed to better understand the mechanism of action, effectiveness, safety and tolerability in humans.

**“Stretch the bottle towards the light; you will see that your dreams are always at the bottom.” - Rob Hutchison**

## Our Red Wines : **RES Rosso da Blend Unico**

**Res Rosso da Blend Unico** is a blend of *Pinot Noir e Cabernet Franc* grapes from our oldest vineyards.

The grapes are **hand-picked in late harvest** and a long maceration takes place, exclusively on autochthonous yeasts.

Res Rosso da Uvaggio Antico *has from 5 to 8 times more resveratrol* than similar vine varieties.

**RES Rosso da Blend Unico** *exhibits a robust structure, with a persistent and harmoniously tannic taste.* Its dark red colour with purple hues comes from its processing techniques.

Similarly, its bouquet blends notes of ripe red fruits with hints of spices.

## Our Red Wines : **RES Rosso da Uvaggio Antico**

**Res Rosso da Uvaggio Antico** is a blend of *Barbera, Croatina, Cabernet Sauvignon* grapes from our oldest vineyards.

The grapes are **hand-picked in late harvest** and a long maceration takes place, exclusively on autochthonous yeasts.

Res Rosso da Uvaggio Antico *has from 5 to 8 times more resveratrol* than similar vine varieties.

**RES Rosso da Uvaggio Antico** *exhibits an harmonious yet robust structure, with a soft, full bodied and persistent taste*, with hints of bitter almond and harmonious tannins. Its rich bright red colour with purple hues comes from its processing techniques. The bouquet reveals notes of ripe red fruits.

## Our White Wine : **Vis Vino Bianco al contrario**

**Vis Vino Bianco al contrario** is a blend of *Pinot Grigio, Riesling, and sun-dried Malvasia* grapes from our oldest vineyards.

It is crafted with a technique similar to red winemaking, resulting in a distinctive color and taste.

The grapes are **hand-picked in late harvest** and crushing is carried out instead of pressing, followed by fermentation in contact with the marc.

**Vis Vino Bianco al contrario** exhibits a *dark yellow colour with gold hues, due to the high flavonoid content.*

Its aroma is *typically aromatic and gifted with intense and fruity flavour.*

Taste is fragrant, persistent and harmoniously complex.

---

## Our Rosé Wine : **Rosae Nettare in Rosa**

**Rosae Nettare in Rosa** is a blend of *Pinot Nero, Pinot Grigio, Riesling, and sun-dried Malvasia* grapes from our oldest vineyards.

It is crafted **with a technique similar to red winemaking**, resulting in a distinctive color and taste.

The grapes are **hand-picked in late harvest** and crushing is carried out instead of pressing, followed by fermentation in contact with the marc.

**Rosae Nettare in Rosa** exhibits a *dark pink colour*, due to the red grapes and the prolonged contact with the marc.

Its aroma is *typically aromatic and gifted with intense and fruity flavour*.

Taste is fragrant, persistent and harmoniously complex.

## Our ideal consumer : who enjoys our wines ?

**Appreciative of Natural, Unconventional Wines:** our wines attract those who value natural production processes, minimal intervention, and a commitment to quality and authenticity

**Science-Savvy** : well-informed about scientific advancements in nutrition and particularly drawn to the health benefits of compounds.

**Discerning Palate and Food Awareness:** familiar with pairing wines with high-quality foods, this consumer appreciates the unique flavors and complexity found in wines crafted outside conventional methods.

*A journey of complexity and depth...*
